

THE COLLECTION

An idea can be inspired
by nature or by
imagination.

Then, creativity and intuition transform the idea into a
design, into a surface for architecture...

18 YEARS OF EXPERIENCE

Arabian Ceramics is one of the largest producers of Ceramic tiles and Porcelain of Saudi Arabia.

Founded in 2006 by Sheik Khaled Bagedo, the company is located at Al Khomra District, Southern Industrial Zone of Jeddah and produces an exclusive range of porcelain and ceramic tiles offering a variety of solutions, commercialized under different brands.

Dar Ceramics is one of Arabian Ceramics brands. Made with red body, DAR tiles combine the latest technology with the passion for design, simplicity and effectiveness. Their ease of maintenance and application contributes to reducing costs for consumers, while preserving environment and promote safety since Ceramic tiles are inert and release no substances.

SUSTAINABILITY & ENVIRONMENT

SUSTAINABLE PRODUCTION

Well-planned use of technologies, procedures and resources, committed to a world that consumes less raw materials, and use these resources in a conscientious way by minimising waste.

ECO-INNOVATION

Product development practices leading to sustainability by reducing any environmental impacts throughout the entire life cycle, taking also into account functionality, quality, safety, cost, manufacturability, ergonomics and aesthetics.

ENVIRONMENTAL RESPONSIBILITY

Reduce-reuse-recycle, are they guide lines of our environmental policy. From the control of air emissions and energy consumption to the recycling of industrial waste, in order to protect the world in which we live, to ensure the lives of future generations.

SOCIAL RESPONSIBILITY

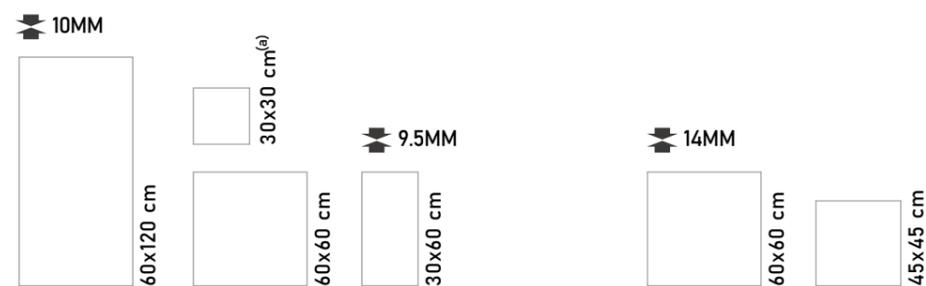

Supporting issues that affect society, such as advocating for child labour laws, purchasing fair trade products, following ethic policies, integrity and honesty ensuring the well-being of the entire organization.

The conventional sizes, which have made tiles an interior design must over the years, have been enriched with new performance and refined aesthetics, to decorate any kind of design, in private environments.

Floor & Wall

Indoor

A modern outdoor patio area featuring a large glass wall on the left. A vertical garden with green plants is mounted on the wall. In the center, there is a dark wooden coffee table and a matching sofa with light-colored cushions. The floor is made of large, light-colored square tiles. The background shows a view of trees and a fence.

PROPERTIES & SPECIFICATIONS

DESCRIPTION

Glazed, dry-pressed, wall tiles, red body with a water absorption $\geq 10\%$, manufactured using a single-firing process. Waterproof, stain and acid-resistant and antibacterial.

APPLICATIONS

Suitable for wall application, indoor use in residential and commercial areas. Not suitable for floor or exterior use.

ADVANTAGES

Non-toxic material, do not release any hazardous substances during or after their long service life. Fungus and mould resistant.

Durable, with an excellent life cycle performance.

Virtually, Arabian Ceramics tiles are modular, based on a 1/8 inch grout line, and can be combined with modular floor tiles from the range.

STANDARDS

The superior technical properties of the tiles allow them to perform well in terms of dimensional stability, flatness, breaking strength, bending strength, and resistance to serious wear and tear.

Arabian Ceramic products are produced in accordance with Saudi Arabian Standard SASO-ISO-13006; European Standard BS EN 14411 & International Standard ISO 13006 and go beyond the current international standards.

MAIN CHARACTERISTICS

-  Acid resistant and Stain resistant
-  Resistant to scratching and mechanical damage
-  Fire Resistance
-  Free of volatile compounds
-  Durability
-  Environmentally friendly
-  Antibacterial
-  Heat and frost resistant
-  Stable chromatically
-  Low maintenance
